Market Almost Sets a' New Record For Dullness.

MOVEMENT IS NARROW

SPECIALTIES SHOW SOME AC-TION-NORTHERN PACIFIC UP

New York, Sept. 12.—Very little can be said of such a market as that of Nov. today beyond the chronicle of the movements of individual stocks. Dealngs fell nearer the point of stagnation than even the record of the recent dullness has yet shown. The few ocks that showed any appreciable novement were not influenced by any eneral condition of business or affairs, general condition of business or affairs, and it was difficult in some cases to account for the movements. Telegraphic communication was much inserrupted by the storms in the west, and this was proffered as an explanation of the dullness, but as orders received by telegraph and executed in the parket have not been a percentible in narket have not been a perceptible in-harket have not been a perceptible in-luence for many months past, the ex-planation was not convincing. The most mercurial specialties, namely, People's Gas, Sugar and Brooklyn Rapid Transit, maintained their poor pre-eminence in the market. But the ange of their fluctuations was extend-duction to reach a point only with palpable effort. Before the market closed prices of the three had been dragged back to

d to reach a point only with palpable fort. Before the market closed prices of the three had been dragged back to sery near las. night's level.

In the railroad list there was some lemand for Northern Pacific at an exreme advance of a point apparently in the large increase in earnings reported yesterday for the first week in September. This seemed to sustain other railroad stocks, even St. Paul recovering sharply in spite of the heavy decine in its first week of September earnings. The coalers were heavy as the period approaches for the declaration of the miners' final decision on the strike.

London bought stocks here again today and helped the opening rise, the London market being encouraged by the belief in the Boer collapse and seemingly by the hope that the renewal of the South African gold supply will so help to relieve the London market. Sterling exchange in New York reacted again and yesterday's demand, which was partly due to remittances on account of the American subscriptions to the British war loan, seemed satisfied. Notwithstanding the down-

n account of the American subscrip-ions to the British war loan, seemed atisfied. Notwithstanding the down-ward course of sterling exchange, opin-ons are strangely persistent in some unarters that gold will soon go out to

Currency continues to move steadily the south and west, and the sub-easury is taking small sums from e market with the cessation of transer of Pacific coast gold and the prac-cal discontinuance of operations un-er the government refunding law. Lo-al money rates are slightly firmer in
